

JAMAH
be who you are

JAMAHA, founded in 2000, is designer/owner Nancy Gale's American luxury, Made in the USA bespoke handbag brand, featuring the finest customized Italian lambskin and exotic handbags, men's bags and accessories.

Returning to an era of master craftsmanship, JAMAHA's bespoke designs are handmade in the USA by expert artisans. The highest quality materials paired with meticulous construction, finishing and supreme purchasing experiences renders an American-made luxury brand that rivals any of its foreign counterparts from European design houses.

A deeply sentimental option, JAMAHA offers custom inscriptions that are elegantly debossed on leather patches and sewn into the bags' interiors. Whether short messages or love letters, these inscriptions allow the bags to tell a story. The ultimate in personalization, JAMAHA's "Making Of" videos follow the creative process from first cut to final stitch at our downtown Los Angeles workshop.

These optional touches crystallize the legacy of JAMAHA bags, cementing them as pieces that carry history.

JAMAH

MOTORCAR COLLECTION

The JAMAH Motorcar Collection marries two niches in the world of luxury goods: handbags and automobiles.

The groundbreaking collection is a natural progression for JAMAH designer Nancy Gale. Raised in Detroit, she brings 25 years of experience designing Made in the USA luxury handbags, messengers and weekenders to this untouched niche of bespoke bags that capture the magic of collectors' luxury cars.

AMBITION

WHERE INNOVATION, EDUCATION AND COLLABORATION CONVERGE

AMBITION is a 501(c)(3) nonprofit organization.

The success of JAMAH provides the bandwidth to support AMBITION, a nonprofit founded by Nancy Gale in 2010 in an effort to integrate cause and commerce. An entrepreneurial program for disadvantaged youth, AMBITION fosters innovation, solution-driven thinking, confidence and professional work ethic. Collaborative, hands-on participation and powerful, consistent connections with business leaders and special guests, including Sir Richard Branson, are at the heart of this mentor-driven program.
